Subject: RE: Draft questions for the driver

Hi, Jonathan. Sorry that I had to miss the call yesterday. I had a family obligation.

I'm back, however, and ready to throw in my two cents.

I would not ask the driver what happens when a student goes home with a friend and thereby avoids passing the landfill. I get what you are thinking. If the student is getting nauseous due to motion sickness rather than odors, they might still get sick when they went home with a friend. I wouldn't ask the driver this, however, because how would she know this? We want to ask what she has observed.

I made some additional edits below. In general, my suggestion is to write the questions out more formally so that you can print them and read straight from your page during the interview. You still have to extemporize the follow up questions.

Here's a link to a Word Doc I created using your questions but expanding them a bit.

Bus Driver Questions.docx (usepa-my.sharepoint.com): <[https://usepa-my.sharepoint.com/personal/mcghee_debra_epa_gov/Documents/Bus Driver Questions.docx?web=1](https://usepa-my.sharepoint.com/personal/mcghee_debra_epa_gov/Documents/Bus%20Driver%20Questions.docx?web=1)>

Subject: Draft questions for the driver

Hi-

Since we have a very rapid turnaround from yesterday, I want to bounce these off you.

?s for **Ex. 6 Personal Privacy (PP)** driver of the school bus for the Ashurst Bar/Smith (AB/S) community

--Start w/same overview script as yesterday's call--

1- name/address/contact info - how long there (how close to the landfill if she lives in the AB/S community too)

2- how long driving the school bus overall? This route?

3- how far to the schools from the AB/S community? What direction? How many kids from the AB/S area? How old are they? Do you have a lot of stops elsewhere?

4- describe what happens to the kids who ride from the AB/S community? How often does it happen that they're vomiting? Has it been going on a long time? Does it ever seem worse? Is it really the entire bus/certain children, etc?

5- what happens if a student from the AB/S (or any other student) wants to go home with a friend who takes another bus- they live in a different direction than the usual bus? Do you hear anything about the students who don't have to go by the landfill? Are they getting motion sickness?

6- What happens if you're sick or out of town? Do you rotate with anyone else to drive this route and then do you hear back from them afterwards? Do the kids still have the same problems?

Am I missing anything important??
